Libraries/Frameworks: Javascript, React, Node js, Express js

Tools / Platforms: Github, Vs code, cursor

Databases: MongoDB

PROJECTS / OPEN-SOURCE

Rejoice | Link

Html, Css, javascript, Gsap,

With this project I was made a clean and attractive frontend on developing this project I learn How to build the clean and Attractive Frontend so that users Attract.

Reimagine Airjordan Website | Link

Html, Css, javascript, Gsap, Swipper js, Locomotive js

With This project i was Aiming to developing a Airjordan website as Airjordan is a brand of Nike itself so there is so much confusion for searching a shoes of Airjordan Brand so here a separate website of Airjordan with clean ui with modern touch.

Macdi | Link

Html, Css, javascript, Gsap, Swipper js, Locomotive js, Three js

With this project i was aiming to give a modern look to macdi website with full of effects and clean ui.

Theme changer | Link

Html, Css, javascript

This project is simple based on theme changer and in this project I built all the boxes from code its not an image all are made by code this was challenging for me as it take lot of patients .
